Chris Sellers is a **Front-End Web Developer** with eight years' experience in JavaScript (including ES6), HTML5 and CSS3, as well as PHP, MySQL and JSP. His experience includes methodologies such as Agile and Lean UX; JavaScript patterns such as Continuous-Integration/Continuous-Deployment, Model-View-Controller, Mediator (services and modules) and test-driven development (TDD); and libraries such as jQuery, React and NodeJS.

For the past seven years, he has worked on high-volume retail e-commerce sites for VictoriasSecret.com and Abercrombie.com. He also has experience in user interface (UI) design and graphic design, making it easy for him to communicate across disciplines.

Languages & Protocols: **JavaScript, React, jQuery, ECMAScript 6, NodeJS, Ajax, Sass, HTML5, JSP, PHP, MySQL, JSON, Handlebars, Mustache, Jasmine, Jest, Karma**

Patterns & Methodologies: **CI/CD (Continuous Integration/Continuous Deployment), MVC, Mediator, TDD, BEM (Block-Element-Modifier) CSS, Responsive Design, Progressive Enhancement ("Mobile First"), Agile, Lean UX**

Applications: **Microsoft Visual Studio Code, Sublime Text, SourceTree, command-line Git, Jira, Charles proxy server, Sun VirtualBox, MAMP, Adobe Creative Cloud (including Photoshop, Illustrator, Acrobat and InDesign), Zeplin, Microsoft Office (including Teams), Slack, Discord, Zoom**

Versioning Systems: **Git, SVN**

|---------------|---|
| 10/15–present | <p>L Brands (Limited Brands)
Wrote JavaScript, Sass, API contracts, and templated markup for several areas of the site, for desktop/tablet/mobile. Rewrote the code for loading and playing videos in 2018, working closely with a cross-functional team. Worked as an SEO developer. Wrote components and utilities in a modular pattern for navigation, landing pages, CMS-driven features, and personalized account functionality.
<i>Technology Environment:</i> JavaScript, ES6, CI/CD, React, jQuery, NodeJS, HTML5, Sass, Git, SourceTree, Jasmine, Jest.</p> |
| 8/14–10/15 | <p>Abercrombie & Fitch
Worked in an Agile team to overhaul the Checkout and Shopping Bag areas of the site, for desktop and mobile. Used unit tests extensively in a code base built around the Mediator pattern.
<i>Technology Environment:</i> jQuery, JSP, HTML5, CSS3, Sass/SCSS, SourceTree, Git, Cornerstone SVN, Jasmine, Karma, Grunt.</p> |
| 11/12–8/14 | <p>L Brands (Limited Brands)
Worked extensively on several areas of the VictoriasSecret.com site, for desktop, tablet and mobile: Checkout, Account, Navigation, and Blog. Worked in Agile and Lean UX. Used Mobile-First techniques. Wrote unit tests. Worked with their content management system (CMS).
<i>Technology Environment:</i> JavaScript, jQuery, HTML5, CSS3, Sass/SCSS, JSP, Git, SourceTree, SVN, Jasmine, Cucumber, Selenium.</p> |
| 5/12–11/12 | <p>Abercrombie & Fitch
Helped overhaul the Checkout area of the mobile site. Worked on other areas of the desktop and mobile sites.
<i>Technology Environment:</i> JavaScript, jQuery, HTML5, CSS3, JSP, IBM RAD, Eclipse.</p> |

Chris Sellers chris@chrissellers.com
614.806.6103 www.chrissellers.com

- 10/09–5/12 **CallCopy, Inc. (now Uptivity)**
Built an online workforce optimization ROI calculator with jQuery UI elements that recorded user data with Ajax calls. As a designer, designed extensive UI comps and marketing materials, and contributed to SEO search-term buy discussions.
Technology Environment: XHTML, CSS, JavaScript, jQuery, Photoshop, Fireworks.
- 1/10–3/10 **Daedalus**
Designer and Developer
Built an original 2D video game in Adobe Flex. Includes a pathfinding algorithm for the enemy and full-color graphics.
Technology Environment: Flex, ActionScript 3, Photoshop.
- 7/09–10/09 **SourceTrace eSolutions Everywhere (ESE) Mobile Designer**
Designer and Developer
Created a B2B Web-based application with multiple UIs for searching and updating database records. The site generated place marks in a Google Earth map.
Technology Environment: XHTML, KML, CSS, PHP, JavaScript, MySQL.
- 8/05–5/09 **Chris Sellers Design**
Designer and Developer
Created Web sites, logos and marketing collateral. Clients include NeilMacFarquhar.com, BrimstoneFellowship.com, SourceTrace.com
Technology Environment: XHTML, CSS, PHP, MySQL, JavaScript, Photoshop, Adobe Media Encoder.
